Ambassador Stamps

Ambassador are stamps or sofa cushions with personalised graphic motives.

The system is simple: You choose a product in the webshop, select a graphic motive and determine your personal text. The ordered product will then be delivered to you shortly after.

You can buy the products in selected stores together with a motive card, enter your personal text on the card and send it to us. The rubber stamp or the cushion case will be delivered to you within a few days.

The following versions of Ambassador are available:

Basic – Motive and text are given

Special – The motive is given, you choose the text.

Exclusive – The motive is freely designed as a unique copy based on your text.

Motives

The customer can choose the text of the motive, the graphic design is developed by an Ambassador designer, the customer can not influence the design. This makes Ambassador Stamps a unique product with collector's item character.

Where from and where to

Ambassador Stamps was founded in 2002 by Fauxpas Grafik – Gilles Bachmann and Martin Stillhart.

Our enthusiasm for rubber stamps was the motivation to produce our own product.

The continuous demand prompted us to expand our offer and to refine the system. The product range and the choice of motives is continuously being expanded. Further, additional designers are assigned to enhance Ambassador to a versatile and constantly growing platform.
